Summary

Analytical CSE Graduate specializing in **MERN Stack** development and data-driven architecture. **Architected** a diagnostic prediction system using **XGBoost**, achieving **92% accuracy** by benchmarking **16 machine learning models**. **Spearheaded** a successful campus startup and **navigated** complex algorithmic challenges in **CPC** programming contests to deliver optimized technical solutions.

Technical Skills

Stack & Languages: MERN (MongoDB, Express.js, React.js, Node.js), JavaScript (ES6+), Python, C++, SQL, Java.

Data Science & Tools: XGBoost, Scikit-Learn, Pandas, NumPy, Matplotlib, Git, GitHub, Docker, Postman, REST APIs, Linux.

Key Projects

Hypertension Prediction: Benchmarked 16 models and optimized **XGBoost** to achieve **92% accuracy** using **Pandas** for feature engineering and **Matplotlib** for visualization.

3AM ADDA (MERN Stack): Engineered a full-stack e-commerce solution with **React.js** and **Node.js**, featuring secure **RESTful APIs** and **MongoDB** for efficient data management.

Experience & Achievement

Founder (3AM ADDA): Orchestrated startup operations and logistics, **optimizing** supply chain efficiency while maintaining profitability during full-time studies. (March 18, 2025)

Competitor (CPC): Resolved complex algorithmic challenges using **C++/Java**, prioritizing **time and space complexity** under high-pressure constraints. (June 22, 2023)

Introduction to Liberal Values (June 10 ,2022 –September 16, 2022)

Positivity- How to Build Positive Mentality (March 23, 2024)

GoEdu & Skilljobs (GoEdu.ac)

Education

B.Sc. in Computer Science & Engineering

► Daffodil International University

(Jan 2022 – Dec 2025)

CGPA: 3.17 / 4.00
